To Whom It May Concern:

Rafael and Katia performed their show, "The Magic of Reading", at the Lennox Public Library on February 19<sup>th</sup>, 2005. I was impressed by their energy and enthusiasm. They were very professional and worked the crowd extremely well. We were filled to capacity, even despite the rainy weather!

Both children and adults alike loved their program. It was full of many memorable audience participation moments and all who attended had a terrific time. The inclusion of books and reading into the show was a nice touch and I would recommend them for any library programming need. I would invite them back to our library any time.

Sincerely,
